DETAILED ACTION

Drawings

1. Figures 4-6 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

2. The disclosure is objected to because of the following informalities: the phrases "water absorption of less than 30%" and "water absorption of 30% or more" are unclear as to how this value is determined or what the 30% is relative to. Appropriate correction is required.

Claim Objections

3. Claims 1-2 are objected to because of the following informalities:

In claim 1, line 5, "a sheet" should perhaps be deleted since it is repetitious and unnecessary. Also, on line 5, "first" should perhaps be inserted before "foam body". In claim 1, line 7, "a sheet" should also perhaps be deleted. Also on line 7, "second" should perhaps be inserted before "foam body".

In claim 2, lines 8 and 10, "a sheet" should be deleted. On line 8, "first" should be inserted before "foam body" and on line 10, "second" should be inserted before "foam body".

Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 2 are vague and indefinite as to what the 30% absorption of the foam bodies are relative to or how these values are being calculated and compared.

Allowable Subject Matter

6. Claims 1-2 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
